# REFRACTION

Patient Name: \_\_\_\_\_ Date: \_\_\_\_\_

## WHAT IS THE REFRACTION TEST?

The Refraction Test, also termed vision test, is an examination that measures an individual’s ability to see an object at a specific distance. The test involves looking through a device called a “phoropter” to read letters or recognize symbols on a wall chart through lenses of different strengths which are contained in the device. (During this process, the Doctor/Technician will ask you “Which is better? One or Two?”) This test is performed diagnostically as part of a normal, medical vision examination. It is also used to determine the prescription for eyeglasses or contact lenses. Our office charge will be a \$50.00 fee for refractions, expected at the time of your exam.

- I will pay the \$50.00 refraction fee if a refraction is needed and a glasses prescription is given.
- I opt out of refraction and understand that no glasses prescription will be given, and no \$50.00 fee charged.

## According to the Medicare Handbook, Chapter 16, Section 90 –

Routine Service and Appliances: Routine physical checkups; eyeglasses, contact lenses, and eye examinations for the purpose of prescribing, fitting, or changing eyeglasses; eye refractions by whatever practitioner and for whatever purpose performed; hearing aids and examinations for hearing aids; and immunizations are not covered.
